

POINT I/O DeviceNet Adapter

(Cat. No. 1734-ADN)

Read This First

Read this document before using your POINT I/O DeviceNet Adapter (1734-ADN).

Updated Configuration Software

You need the following software versions to operate your 1734-ADN as designed:

- RSLinx, Version 2.20, Service Pack 1
- RSNetWorx for DeviceNet, Version 2.24.11

IMPORTANT

If you do not have the versions listed above, you need to install the service pack.

You can install the software service packs from one of the following locations:

- POINT I/O Configuration Software CD - The CD shipped with your 1734-ADN and contains documentation for installation.

The POINT I/O Configuration Software CD should have arrived with your 1734-ADN. If you did not receive the CD, contact your local Rockwell Automation representative.

- <http://www.software.rockwell.com/support/download/>

If you choose to download the software from the internet, follow the steps below.

1. Narrow the search for the Service Pack by choosing:
 - Sub-Category: Service Packs
 - Product: RSNetWorx
2. Click the Search button
3. Select the appropriate download by title.
4. Save the downloaded file to your computer
5. Start the executable file that was downloaded.
6. Click “Setup”.
7. Follow the instructions on the screen.

TIP

You may delete the file that was downloaded after the installation is complete.
